

ALL PROBLEMS CAN BE COMPLETED ON THIS WORKSHEET

**WS 6E.1 - Solving for y**

Solve each equation for y.

1.  $3x + 7y = 35$

2.  $9y + 6x = 54$

3.  $x - y = 4$

4.  $5y = 2x$

5.  $6x - 3y = -24$

6.  $-9 = 2y - 7x$

7.  $\frac{5y}{4} - \frac{x}{2} = \frac{2}{3}$

8.  $\frac{x}{5} + \frac{2y}{3} = \frac{4}{3}$
